

## Autism and Learning Disabilities Training Tier 2

**Course duration:**  
2 Hours

**Date & Time:**  
26th April 2023  
10am - 12pm

**Price:**  
£35 + VAT per person

# Who is the programme for?

This interactive live webinar is suitable for everyone working in the social care sector including care homes, residential homes, supported living services, domiciliary services and other community-based services.

This training will support candidates in preparing to meet the CQC requirement for staff training, in support of Autistic people and people with a Learning Disability. This is in accordance with the Health and Care Act 2022 and in advance of the Oliver McGowan Mandatory Training on Learning Disability and Autism.

## Mapping to Core Capabilities Framework

The content of the webinar maps to the Core Capabilities Framework for Supporting People with a Learning Disability and the Core Capabilities Framework for Supporting Autistic People at Tiers 1 and 2.

# Meet the Trainer

This Learning Disabilities and Autism webinar will be delivered by a lived experience practitioner and trainer who will share their insights with you.

Andy is a late-diagnosed Autistic person who has worked on the development of and delivery of a number of different Autism training sessions. He joined 3Spirit approximately 4 years ago as an expert by experience and has progressed to undertake his training qualification and is now part of the Autism training team. He provides a unique insight into his life as an Autistic adult.

## Training Learning Outcomes

- Define the terms 'learning disability' and 'intellectual disability'
- Describe the difference between 'acquired brain injury', 'intellectual disability' and 'autism'
- Explain how to adapt communication appropriately to support autistic people
- Describe labels and common myths and how these may impact on own practice
- Describe a range of common health conditions and their potential impact on the individual
- Identify common mental health conditions and explain why they can be overlooked in autistic people

## Delivery Method

This course will be delivered as a live interactive webinar, over the Zoom platform. It will be delivered over two hours. This is a cost-effective and quality-focused alternative to elearning, which enables direct interaction with the trainer and Q&A with a sector expert. The webinar will include a variety of activities, including interactive whiteboards, polls, case studies, and chat activities.

## Hear what our learners had said...

"I attended the Autism and Learning Disability training course with Andy and I found this to be a very interesting and a very helpful course. I have put to use what I learned already today with an Autistic patient whilst on duty. I found it personally helpful. I just wanted to feedback how helpful Andy was and for giving me a better insight."

## Book a Place
