

## Medication Awareness Training

**Course duration:**

3 Hours

**Date & Time:**

27th April 2023

1:30pm - 4:30pm

**Price:**

£45 +VAT per person

# Who is the programme for?

This is a cost-effective and quality-focused alternative to e-learning. This 3-hour webinar is suitable for anyone working in the social care sector including care homes, residential homes, supported living services, domiciliary services and other community-based services.

## Training Learning Outcomes

- Describe your responsibility and accountability in relation to administration of medication
- Describe how to use a person-centred approach in the administration of medication
- Recognise the impact of poor practice in the administration of medication
- Identify what is meant by a 'medication error' and reasons why an error may occur
- Describe the appropriate action when a medication error occurs
- Describe the correct procedure for supply, storage, administration and recording of medications

# Delivery Method

This interactive session will offer a fully immersive learning experience that is enhanced by small group learning. The maximum number of candidates per session is 16, giving opportunity for all learners to engage directly with the trainer, take part in interactive activities (like polls, whiteboards, case studies, breakout rooms etc.) and share learning with others in focused discussions.

## Book a Place
